

Governing Principalities in the Parishes

Satan is a “**Copypcat**”. He creates nothing and is therefore not original in anything he does. What Satan does is to imitate God. Hence Satan’s kingdom structure is partly fashioned off that of God’s in terms of its hierarchical structure.

Therefore in every region or parish Satan has a particular stronghold and controlling influence over that area, dominating the mentalities, business, culture, education and certain religious activities.

All the above are designed by Satan to lord these communities and regions and actually hold an entire nation and people under the sway of satanic domination.

If we can, as the people of God, organize ourselves, study our enemy, know his weaknesses and strengths, his operations and his thinking, then we can strategize and win the war.

PRINCIPLE #1

Over every nation there is a ruling principality or spirit vying for control seeking to dethrone the righteous principalities and establish Satan’s rebellious rule. But let us remember Jesus Christ is head over all principalities. [Ephesians 2:20-23](#), [Colossians 1:15-23](#)

There is a further breakdown over regions, using point revelation of spiritual warfare in [Ephesians 6](#):

1. Principalities
2. Powers
3. World Rulers
4. Spiritual wickedness in high places

By extension using this principle there is sufficient evidence to indicate that there are certain strongholds over parishes of our nation enforced by ruling principalities.

Kingston is Jamaica’s capital city and the seat of government, the economic commercial and business center. Spirits that are entrenched over Kingston:
